GEOCHEMISTRY INTERNATIONAL

VOLUME 18

CONTENTS FOR 1981

Number 1

Surkov, Yu.A., F.F. Kirnozov, V.I. Gur'yanov, V.N. Glazov, A.G. Dunchenko, S.S. Kurochkin, V.N. Rasputnyy, E.G. Kharitonova, L.P. Tatsiy, and V.O. Gimadov. Investigation of Aerosol in Cloud Layer of Venus by Means of the Venera-12 Automatic Interplanetary Station (Preliminary Data) 1

Richards, J.R. Some Thoughts on the Time-Dependence of Lead Isotope Ratios 8

Shkodzinskiy, V.S. Evolution of Phase Composition and Genesis of Granitic Magma 25

Kadik, A.A., S.N. Shilobreyeva, M.V. Akhmanova, A.B. Slutskiy, and V.I. Korobkov. Solubility of CO_2 in Melts of Acid Composition for the Case of the Albite–Silicate System (65:35) 42

Volosov, A.G., M.V. Borisov, T.M. Sushchevskaya, and S.N. Knyazeva. Deposition of Cassiterite during Formation of Hydrothermal Tin-Ore Deposits, according to the Results of Physicochemical Modeling . . . 49

Gerasimovskiy, V.V. and D.A. Mineyev. Rare Earths in Apatites from Apatite-Magnetite Ores 67

Kravchuk, I.F. Energy Relations, Thermodynamics, and Stability of Solid Solutions of Garnets 73

Dorofeyeva, V.A. and I.L. Khodakovskiy. Calculation of the Equilibrium Composition of Multicomponent Systems by the "Minimization" Method from the Equilibrium Constants 80

Oreshkin, V.N. and Ye.G. Gurvich. Cadmium in Suspension and the Water at the Mouths of Certain Rivers Flowing into the Arctic Ocean and the Black Sea 86

Antipin, V.S., V.I. Kovalenko, A.I. Kuznetsova, and L.A. Persikova. Distribution Coefficients for Tin and Tungsten in Ore-Bearing Acid Igneous Rocks 92

Ivanova, G.F., K.I. Ignatenko, N.N. Kononkova, I.Ye. Maksimyak, and G.A. Milovskiy. Microprobe Data on the Iron and Manganese Distributions in Wolframites 107

Senderov, E.E., A.M. Bychkov, Ye.B. Lebedev, and A.M. Dorfman. Effects of Sodium on the Equilibrium Order in Monoclinic Potash Feldspars 122

Khodakovskiy, I.L., V.A. Dorofeyeva, G.L. Mel'nikova, A.V. Garanin, and B.N. Ry'zhenko. Thermodynamic Parameters of Liquid Water at 0-300°C and Pressures up to 10,000 bar 135

Ryabchikov, I.D., D.H. Green, W.J. Wall, and G.P. Brey. The Oxidation State of Carbon in the Reduced-Velocity Zone 148

Sokolov, S.V. Temperature Variation in the Production of Alkali-Ultrabasic Rocks with Carbonatite Intrusions 159

Malysheva, T.V., I.D. Sheraleyevskiy, and Ye.Ya. Shcherbovskiy. Microprobe Analysis of the Distributions of Fe, Ni, Mg, Si, Co, Al, and S in Natural and Fired Carbonaceous Chondrites 167

Chakhmakhchev, V.A., E.V. Kurganskaya, and S.A. Punanova. Distribution of Trace Elements in Petroleum Fractions 177

Number 2

Kuznetsov, R.A., B.G. Lur'ye, V.Ya. Minevich, V.I. Styuf, and V.B. Pankratov. Element Distributions in Luna 16 Regolith 1
Shatskiy, V.S., A.S. Lebedev, V.S. Pavlyuchenko, L.T. Kovaleva, O.A. Koz'menko, A.N. Yudin, and N.V. Belov. Conditions for Entry of Alkali Cations into Beryl 7
Sotnikov, V.I., Yu.P. Kastrykin, and Ye.I. Nikitina. Distributions of Chlorine and Fluorine in the Minerals of Intrusive and Postmagmatic Rock Bodies of Molybdenum Shows in the Stanovoy Range 18
Sakharova, M.S., Yu.A. Batrakova, and S.K. Ryakhovskaya. The Effects of pH on the Deposition of Gold and Silver from Aqueous Solution 28
Silichev, M.K. and N.V. Belozertseva. Zoning in the Distribution of Impurities in Quartz, Arsenopyrite, and Galena from a Gold-Ore Deposit 35
Grigor'yev, N.A., I.N. Bushlyakov, P.V. Pokrovskiy, M.S. Rapoport, and N.Ye. Chistyakov. The Beryllium Distribution around Hydrothermal Rare-Metal-Tungsten Shows 41
Sheremet, Ye.M., M.I. Avtushko, and G.S. Gormasheva. Ore-Bearing Criteria for Metasomatic Granitoids 48
Belyayev, S.S., A.Yu. Lein, and M.V. Ivanov. Roles of Methane-Producing and Sulfate-Reducing Bacteria in the Destruction of Organic Matter . . 59
Grabezhev, A.I. Equilibration Time and Equilibrium Trace-Element Distributions for Minerals in Granitoids 68
Vovk, I.F. Radiolytic Model of Formation of Brine Compositions in the Crystalline Basements of Shields 80
Ryzhenko, B.N., G.L. Mel'nikova, and Yu.V. Shvarov. Computer Modeling of Formation of the Chemical Composition of Natural Solutions during Interaction in the Water–Rock System 94
Shikina, N.D., A.V. Zotov, and I.L. Khodakovskii. An Experimental Investigation of Equilibria in the α-HgS–H_2S–H_2O System at 90 and 150°C 109
L'vov, S.N., V.I. Zarembo, and V.N. Gilyarov. Precision Investigations of the Volume Properties of Aqueous Solutions of Sodium Chloride at High Parameters of State 118
Korobeynikov, A.F. Gold in Feldspars of Intrusive and Metasomatic Rocks 130
Mironov, A.G., S.M. Zhmodik, and E.A. Maksimova. An Experimental Investigation of the Sorption of Gold by Pyrites with Different Thermoelectric Properties 153
Pekchar, F. and D. Rykl. Infrared Spectra of Natural Zeolites of the Mordenite Group 161
Bliskovskii, V.Z., V.A. Bondar', and A.Yu. Lein. Isotopic Composition of Carbon in the Minerals of Phosphorite Ores 172

Number 3

Sharkov, Ye.V. and A.S. Sindeyev. The Orthopyroxene Barrier and the Origin of Andesite Rock Series 1
Pokrovskiy, V.A. and I.P. Ivanov. A New Method of Examining Hydrolytic Mineral Equilibria 11
Zyryanov, V.N. Phase Relations in the Lc_{ss}-Ne_{ss}-Fsp-$(K,Na)Cl^m$ System and the Pseudoleucite Problem 23
Khodakovskiy, I.L. and N.D. Shikina. The Role of Carbonate Complexes in Mercury Transport in Hydrothermal Solutions (Experimental Studies and Thermodynamic Analysis) 32
Korzhinskiy, M.A. Apatite Solid Solutions as Indicators of the Fugacity of HCl^0 and HF^0 in Hydrothermal Fluids 44
Kotel'nikov, A.R., A.M. Bychkov, and N.I. Chenavina. The Distribution of Calcium between Plagioclase and a Water-Salt Fluid at 700°C and P_{fl} = 1000 kg/cm² 61
Sigorova, T.A., N.V. Kotov, Ye.N. Kotel'nikova, B.M. Shmakin, and V.A. Frank-Kamenetskiy. Synthesis, Diffractometry, and IR Spectroscopy of Micas in the Series from Muscovite to the Ammonium Analog 76
Kalinichenko, A.M., I.V. Matyash, S.A. Galiy, S.N. Tsymbal, V.S. Monakhov, and Yu.A. Kuznetsov. Proton Magnetic Resonance in Pyrites of Various Genetic Types 83

Tolstikhin, I.N. Abundance of Planetary Primordial Gases in the Atmospheres of Venus, the Earth, and Mars 87
Florenskiy, P.V., and Yu.P. Dikov. The Origin of Tectites: The Reasons for Their Constant Composition and Structure 92
Kuznetsov, A.D. and M.B. Epel'baum. Thermodynamic Description of Systems with Completely Mobile Components 101
Plyusnin, A.M., Yu.F. Pogrelnyak, A.G. Mironov, and S.M. Zhmodik. The Behavior of Gold in the Oxidation of Gold-Bearing Sulfides . . . 116
Ryabchikov, I.D., V.I. Kovalenko, Yu.P. Dikov, and N.V. Vladykin. Titaniferous Micas from the Mantle: Composition, Structure, Formation Conditions, and Possible Role in the Production of Potassic Alkali Magmas 124
Korobeynikov, A.F. Gold in Intrusive-Rock Biotite 138
Tugolesov, L.D. and Ye.D. Osokin. Rare-Element Distributions in the Main Types of Associations of Nepheline Syenites in the USSR . . 155
Miklishanskiy, A.Z., Yu.V. Yakovlev, B.V. Savel'yev, and V.V Atrashkevich. The Entry of Trace Elements into the Atmosphere from the Oceans 161
Ustinov, V.I., A.V. Ukhanov, and V.A. Grinenko. Oxygen-Isotope Compositions of Mantle Xenoliths from the Obnazhennaya Kimberlite Pipe in North Yakutia 170

Number 4

Lavrukhina, A.K., N.K. Sazhina, V.G. Kashkarova, G.V. Baryshnikova, K.I. Ignatenko, and S.A. Stakheyeva. Chemical Compositions of Olivines from L-Group Chondrites 1
Shanin, L.L., M.M. Arakelyants, O.A. Bogatikov, V.V. Ivanenko, Yu.G. Pupyrev, L.S. Tarasov, and D.I. Frikh-Khar. ^{39}Ar-^{40}Ar Dating of Lunar Soil from the Sea of Crises 26
Shvarov, Yu.V. A General Equilibrium Criterion for an Isobaric-Isothermal Model of a Chemical System 38
Baranova, N.N. and B.N. Ryzhenko. Computer Simulation of the Au-Cl-S-Na-H_2O System in Relation to the Transport and Deposition of Gold in Hydrothermal Processes 46
Var'yash, L.N. and V.I. Rekharskiy. Behavior of Cu(I) in Chloride Solutions 61
Kovalenko, V.I., V.S. Antipin and I.D. Ryabchikov. Variations in the Rubidium Distribution Coefficient in Igneous Rocks 68
Vorob'yev, V.Ya. Statistics of Carbon-Isotope Ratios in Natural Objects and the Energy Aspects of Oil Formation 81
Golyshev, S.I., A.V. Cherepnin, V.G. Ivanov, and L.S. Manylova. Isotope Composition of the Bicarbonate Carbon in Stratal Waters in Petroliferous Deposits 95
Ovchinnikova, G.V. and L.A. Neymark. The Excess Lead in Meteorites . 102
Karpukhina, V.S. and E.N. Baranov. Forms Taken by Indicator Elements in the Endogenous Geochemical Aureoles of Pyritic Deposits 116
Khodakovskiy, I.L. and V.A. Dorofeyeva. The Dielectric Constant of Water and Its Deviatives with Respect to Temperature and Pressure in the Ranges 0-300°C and 1-5000 Bar 129
Fonarev, V.I. Thermodynamic Functions of Olivine and Orthopyroxene Solid Solutions 142
Kravchuk, I.F. Energetics, Thermodynamics, and Stability of Olivine and Pyroxene Solid Solutions 158
Litvin, Yu.A. Methods of Examining Phase Equilibria at High Pressures Involving Iron-Bearing Magmatic Melts 174
Ryabchikov, I.D., V.I. Rekharskiy and A.V. Kudrin. Mobilization of Molybdenum by Fluids during the Crystallization of Granite Melts . 183
Makarov, Ye.S. New Crystallochemical Aspects of the Distributions of Iron-Group Transition Elements in Sulfide and Oxide Minerals . . . 187

Number 5

Fonarev, V.I. Thermodynamic Functions of Cummingtonite Solid Solutions 1
Kravchuk, I.F. Energetics, Thermodynamics, and Stability of Feldspar Solid Solutions 12

Surikov, V.V. Nature of the Heat of Mixing in the SrO-BaO System . . 24
Kolesnik, Yu.N., V.V. Nogteva, N.V. Makukhin, L.V. Mel'chakova, N.D. Topov, and I.Ye. Paukov. Specific Heat of Aluminian Orthopyroxene at 13-800 K and Thermodynamics of Solid Solutions of Aluminian Orthopyroxenes 35
Kotov, N.V., M.I. Domnina, P.V. Vorob'yev, G.M. Kovnurko, and V.A. Galibin. Experimental Determination of the Composition of the Albitizing Solution during Hydrothermal Transformation of Granite in the Presence of NaF 47
Neymark, L.A., A.D. Iskanderova, A.P. Chukhonin, Ye.P. Mironyuk, and Ye.Ye. Romina. U-Pb Data on the Archean Age of the Metamorphic Rocks in the Stanovoy Range 55
Zhorov, V.A., S.G. Boguslavskiy, A.G. Kobylyanskaya, V.P. Ronkova, and R.I. Ivanov. Trends in the Spatial Distribution of Oxygen in the Black Sea during the Summer 65
Zaguyin, V.P., A.M. Plyusnin, and Yu.F. Pogrebnyak. Transient Variations in the Contents of Tungsten, Molybdenum, and Gold in Dispersion Flows 74
Ivanovskaya, I.N., L.Ye. Shternberg, S.F. Makhov, A.R. Musina, and V.P. Filonenko. Carbon Isotope Fractionation in Solid-State Diamond Synthesis 82
Golyshev, S.I., N.L. Padalko, and S.A. Pechenkin. Fractionation of Stable Oxygen and Carbon Isotopes in Carbonate Systems 85
Shukolyukov, Yu.A., A.B. Verkhovskiy, Ye.R. Drubetskoy, B.V. Oleynikov, A.V. Okrugin, Ye.V. Bibikova, V.A. Makarov, T.I. Kirnozova, E.M. Prasolov, A.P. Meshik, Ye.P. Subbotin, and B.K. Zuyev. Isotope Indicators of a Mantle Origin for Native Metals in Trap Rocks 100
Fefelov, N.N., L.D. Zorina, and S.B. Brandt. The Bearing of Isotope and Petrochemical Data in the Origin of Ore Deposits 112
Geletiy, V.F., L.V. Chernyshev, and T.M. Pastushkova. Equilibria of Solid Phases in the PbS-CdS System with Water-Salt Solutions at Elevated Temperatures and Pressures 123
Dadze, T.P., V.I. Sorokin, and I.Ya. Nekrasov. Solubility of SnO_2 in Water and in Aqueous Solutions of HCl, HCl + KCl, and HNO_3 at 200-400°C and 101.3 MPa 142
Grigor'yeva, T.A. and L.S. Sukneva. Effects of Sulfur and of Antimony and Arsenic Sulfides on the Solubility of Gold 153
Zarembo, V.I., L.V. Puchkov, and S.N. L'vov. Standard Values of the Thermodynamic Functions for Sodium Hydroxide in Aqueous Solution at 298-600°K 159
Tambiyev, S.B. Geochemistry of Boron in Phosphorites and Bone Phosphate from the Ocean Floor 164
Gurko, N.N. and M.A. Galishev. Origin of Naphthenic Petroleum 172

Number 6

Barsukov, V.L. Comparative Planetology and the Earth's Early History 1
Ronov, A.B. Composition and Evolution of the Sediments in Major Continental Structural Zones 13
Verkhovskiy, A.B., A.N. Khorev, and L.K. Levskiy. Cosmochemical and Geochemical Consequences of Sorption of Argon and Xenon by Minerals 23
Popov, V.S. The Petrological Significance of the Crystallization Sequence in a Calc-Alkali Magma 33
Bannikova, L.A. Relation of Isotopic Composition and Luminescence in Calcite to the Transformation of Organic Matter under Hydrothermal Conditions 44
Tauson, V.L., M.G. Abramovich, and G.V. Lobza. Purposes and Methods in Research on the Fine Structures of Minerals 50
Berman, Yu.S., V.A. Borodin, and I.F. Brovchuk. Mercury in the Minerals and Ores of a Silver Deposit 61
Krylova, L.Ya. Iodine Distributions in Pegmatites, Metasomatites, and the Surrounding Metamorphic Rocks 69
Baturin, G.N. and V.N. Oreshkin. Cadmium in the Process of Recent Oceanic Phosphorite Formation 75
Supatashvili, G.D. Demineralization and Fractionation during Snow Melting 81
Shukolyukov, Yu.A. and Dang Vu Minh. Noble-Gas Isotopes and the Evolution of the Earth's Atmosphere 89

CONTENTS FOR 1981

Manuel, O.K. Heterogeneity in Meteorite Isotopic and Elemental Compositions: Proof of Local Element Synthesis 101
Sobotovich, E.V. Isotopic Data on the Heterogeneity of the Protoplanetary Material 126
Stavrov, O.D. A Geochemical Method of Granite Association Analysis and the Criteria for Related Deposits 138
Rafal'skiy, R.P. and A.P. Masalovich. Determination of the Instability Constants of Lead Chloride Complexes at Elevated Temperatures . . . 158
